

**HOT WE ARE**

# TECH SPECS

Hotchain is a forefront cryptocurrency forked from PIVX 3. It is built to lead the adult entertainment online services payments, because it focuses on security, and fast, anonymous transactions. The technical specifications are the most modern and secure, verified by a huge community, as the codebase is actually PIVX 3. Quark algo, 200 blocks PoW phase, premine 800000 HOTX, PoS with Masternode consensus. Block reward goes 15% to Staker and 85% to Masternode. Total Supply will be 21M HOTX. Masternode collateral is 1000 HOTX.

# PRESALE INFO

Presale is running in our [Discord](#) till March, 31 2019. 1 Masternode is for sale at 0.15 BTC, 3 Masternodes gives you right to a 20% discount. During presale no more than 3 Masternodes per person, and no more than 100 Masternodes will be sold overall. After the end of presale, there will be immediate Exchange listing, the best one we can afford between Crex24 and SouthExchange.

# HOTCHAIN PLATFORM

# HOTCHAIN PLATFORM

Hotchain Platform is gonna be the first use case for HOTX, and it will be ready before Exchange listing. Considering both our currency and our market analysis we found the best two services to offer online are adult related accessories and online dating.

## **Hotchain Platform 1.0 (April 2019)**

Will feature an adult entertainment marketplace where you can buy all kind of sexy shop stuff. HOTX will be the only currency in the shop. We are working on it right now and it will be up and running at the end of presale, and before exchange listing!

# HOTCHAIN PLATFORM

## Hotchain Platform 2.0 (July 2019)

Will feature an adult entertainment meeting point, where users will be able to video chat, participate in live shows, become performers.

Performers will have their marketplace category.

A free chat-roulette mode will be implemented in order to attract users on the platform and the HOTX currency.

# MARKET OVERVIEW

In order to figure the size of the adult entertainment market, just consider that the most popular porn site in 2018 had 33.5B visits. It's like if any human on Earth has watched it at least 6 times. And consider it's just one site, there are tens of thousands! According to [Webroot](#), 35% of Internet downloads is porn related. In 2014 an [NBC](#) investigation estimated the global adult entertainment market capitalization \$97B. Nowadays, in lack of any

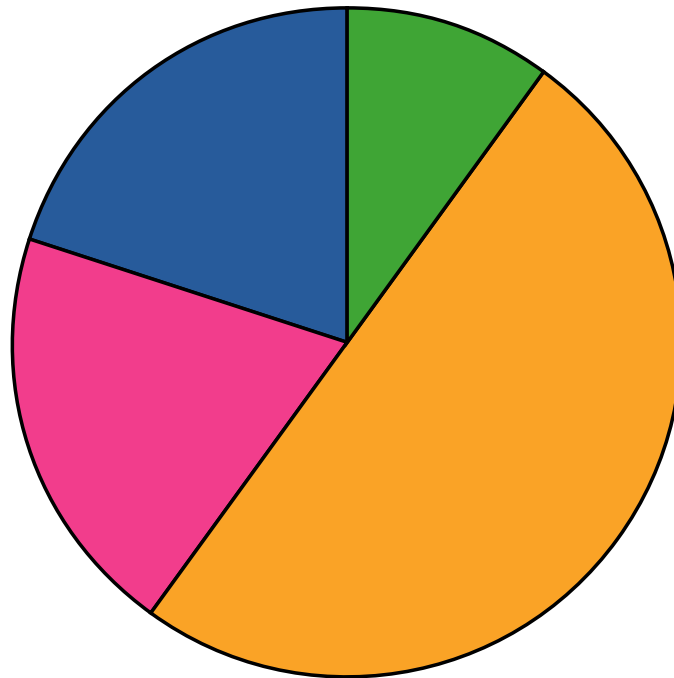

official data, a pessimistic view assesses it above \$150B. If Hotchain could get at least 0,5% of this market, it would handle payments for \$750M every year. Combine high demand with a very low total supply of just 21M coin and the result is a very good long term deflationary effect. Further we explain why we think Hotchain could get a much bigger share than 0,5%, and what the team is going to do in order to reach this goal.

# USE OF THE PROCEEDS

100% of the presale funds will be reinvested. 10% will be used to sustain project's costs for the first year. Investments will focus on three areas, marketing (50%), exchange listing (20%) and professional advisors(20%). Regarding marketing Hotchain will hire advisors already into porn industry, and their mission will be new partnerships to bring HOTX into sexy shops, webcam

shows, porn sites, etc. Obviously, huge campaigns on socials, both in adult and crypto related contexts will be held. Hotchain will noun Lawyers either in Malta, Switzerland or Lichtenstein, in order to establish a legal entity in a cryptocurrency friendly environment. Regarding exchanges, we will go on the best ones that presale proceeds will allow.
