## 1. PROJECT SUMMARY

Our current educational system is based on the victorian educational system.

The system of education was breed for one purpose only- To produce identical minded persons for employment.

Therefore, the grading method used for all was the same.

Psychologically, it is flawed. But the hierarchy then didn't care if everyone had different thought processes, they still measured them with one identical method- the exam.

These school created to suit the needs of that era. Now the era of government jobs is over.

This is the era of self-empowerment. And if we stick with the victorian system of education, we will keep producing people

who can't think outside the box( meaning, thinking in their own peculiar way).

The new system of education is 'education on demand'.

And the only viable driving factor for such type of education is wealth and proof of work.

## WHAT DO WE PROPOSE?

1. A new system of valuation to replace the certificate.
2. New system for show of proof of work/ intelligence.

I present to you, the Xandereum token. With use of the waves blockchain as an open ledger and a proof of work.

Each time someone pays you a Xandereum token for your tutelage on any platform, the price he pays is the worth of your intelligence and also your proof of work.

The xanderian website will house proof of work and valuation of users.

Other third party platforms may come up. Xanderian website will work as an upgrade to LinkedIn

Off-platform transactions/ valuations will be taken with a pinch of salt since its validity and valuation cannot really be ascertained. Meaning, we cannot say that the transaction was made because you gave someone valuable knowledge.

## 2. THE PROBLEM AND SOLUTION

Our society has closed its eyes to the problem of unemployment and educational malpractices, chiefly because they feel powerless about it.

Always, their first line of thought is the possibility of them changing the educational system which no longer works.

Thousands graduate each year unprepared for real life challenges. These challenges come without a gainful employment so youth turn to vices while employing the knowledge they amassed in the university.

The educational system inadequately prepares one for entrepreneurship. The basic desire to be creative have been dampened by the system of a single means of gradation- the exam. If left unattended to, education(higher education) will quickly become an unattractive and vain-filled venture.

More often than not, our attention is drawn to people who had no tangible higher education achieving success financially.

This conundrum must be answered with a swift and decisive reply by intellectuals. For knowledge is far more important than

the monetary gains attached to it. But this claim is silenced when one comes face to face with the fact that employment rates keep going down and literacy rate keeps raising. What words of consolation can you offer one who graduated with a CGPA of 5.0, yet cannot find gainful employment because he is not the only one in his field who also came out with that same stellar result.

Yes, to that man, knowledge becomes a vanity fair. He'll live his life believing that his friend who didn't care for higher educational degree but is now financially successful, made the better choice.

But problems have solutions. Not only does Xandereum and the Xanderian Institute aims to end this but also to create an ideology that every skill, if it can generate cash, is highly valuable as a university degree.

We are walking the path of a paradigm shift from the traditionally mentality of a university degree, environment, valuation and gradation.

We seek to do this using the waves based token Xandereum as an open ledger for gradation and valuation.

All users will be graded using the Xandereum token as follows:

Range in Xandereum	Grade
<1	Erectus

1 - 100	Human
101 - 1000	Hawking
1001 - 10, 000	Tesla
10, 001 - 100, 000	Einstein
100, 001 - 1 million	Newton
> 1 million	Xanderian

The Xanderian grading system grades all acquired knowledge in one single grade( Erectus, Human etc), therefore, payment made to all intellectual knowledge is accumulated.

## 2.1 THE CURRENT EDUCATIONAL SYSTEM

The current educational system is built for the production of graduates of solely for employment, hence the exam is used to produce intellectually identical individuals.

Individuals who more often than not, end up not getting gainful employment.

## 2.2 THE XANDERIAN EDUCATIONAL SYSTEM

This system aims not just to change how we grade and value intellectual knowledge but to unify all intellectual knowledge that provides monetary gain.

The Xanderian educational system avails one the opportunity to pursue one's dream while gaining a degree concurrently.

Exams will not be set but students will go through courses over and over again.

Each time one finishes a course, one gets half a star. As one reads a course, a percentage is accrued is the course one is studying. The less one reads a course, the less the percentage.

Once one starts a course, one has to continue reading it or use the pause button, else 1 Xandereum will be subtracted from his xandereum wallet.

Once one is done studying a section, one has to answer truthfully one has studied the content of that section of course.

### 3. THE XANDEREUM TOKEN

The xandereum token is the means of gradation. If your intellectual knowledge or service is valuable, it will be proven by how much someone is willing to pay for it.

Token name	Xandereum
ICO Price	0.002 USD
Supply	100,000,000,000

Hard cap	100,000 waves
Soft cap	10,000 waves
Ticker Symbol	XDR
Symbol	*
Sub-unit	Xan

The Xandereum token was minted on the waves platform.  
Details below:

Token ID:

9dv2pN3uhxjUWC5Pmd4N6XdgGagwKA12Dj4UubhEN6R1

Name: Xandereum

Token platform: Waves platform

Type:

Not reissuable

Issue date:

10.03.2018 10:41

Description:

The token for a decentralized education.

Full detail on waves' block explorer:

<https://wavesexplorer.com/tx/9dv2pN3uhxjUWC5Pmd4N6XdgGagwKA12Dj4UubhEN6R1>

### 3.1 THE MONETARY VALUE

While the xandereum token is a token to attributes intellectual value, it will also have its monetary value owing to the twin agents of demand and supply. What the price will be after the ICO cannot be ascertained now and will not be discussed.

### 3.2 THE INTELLECTUAL VALUE

The intellectual value will be determined by each person based on the intellectual knowledge or service(s) received.

### 3.3 INITIAL COIN OFFERING

This will be done in two phases.

Phase one: The private sale. A selected amount of people, numbering up to 40, will be allowed to partake in the private sale. The first 30 will be done on a first come; first served basis. While the last 10 will be randomly selected from the white-list.

Note: There will be a white-listing for the private sale.

The Xandereum token will sell at 50 USD for 100, 000 Xandereum. There will two options: 50 USD option and the 100 USD option.

Phase two: The main sale. This will be open to all willingly investors. The main sale price will be 0.001 dollars. There will be bonuses for early investors.

The date for both the main sale and private sale will be announced via our social media channels

#### 4. THIRD PARTY ADOPTION

The Xandereum token is an open source tool, therefore, can be adopted by other institutions. The use of both the xandereum token and the Xanderian institute model open for adoption by any third party institution or body.

#### 5. THE XANDERIAN WEBSITE MODEL

The archetype for the xanderian website is created so third party adoption and improvements will be easy. We do hope it will create room for a better and more robust adoption of the xandereum token as a tool for gradation.

The xanderian site model is basically a linkedIn model site but with the addition of the media of gaining knowledge and impacting knowledge.

##### 5.1 MODEL FOR INTELLECTUAL VALUATION

Intellectual valuation will be facilitated using the xandereum token.

To makes payment for intellectual services rendered on the site, you do so via MEW or other token wallet, then go to the site and type in the receiver's wallet address on the site and click on payment sent. The site will automatically update the account balance of the the receiver by searching the transaction on the blockchain using the receiver's wallet address.

Payments must bear the intellectual service sold and will be attached to that particular skill of the one receiving payment.

For example, one pays 50 XDR for graphics taught or created for a client, the 50 XDR will be attached to his graphics skill set.

## 5.2 DEPARTMENTS

These are the list of current departments in the institute. Subsequently, more will be added by users.

- Department of Barbering
- Department of graphics
- Department of psychology
- Department of medical ethics
- Department of sociology
- Department of comic history

- Department of multilevel marketing
- Department of blockchain technology
- Department of culinary studies
- Department of social media interaction
- Department of Information and computer technology
- Department of colonial living
- Department of fashion technology

### 5.3 LECTURE MODEL

Lectures on the xanderian institute will be done with videos accompanied with notes. Each lecture post earns the lecturer an amount of xandereum. The amount of xandereum will be determined by market value of xandereum, lecturers grade point ( Human, Hawking, etc) and lecturer's ratings by students.

Courses created by lecturers or student will added via a vote.

### 5.4 LEARNING MODEL

Students will be giving incentives when they learn on the xanderian institute.

When a student adds a course, the student is given 1 xandereum. For each consecutive month a student reads, he gains 0.5 Xandereum. Students can also earn xandereum by rating lectures. To rate lectures, the student must have been giving approval to do so and only students whose grades are Einstein and above can apply for the right to rate lectures.

## 5.5 GRADATION MODEL

The model for gradation encompasses all knowledge amassed in the xanderian institute or else where.

All users will be graded using the Xandereum token as follows:

Range in Xandereum	Grade
<1	Erectus
1 - 100	Human
101 - 1000	Hawking
1001 - 10, 000	Tesla
10, 001 - 100, 000	Einstein
100, 001 - 1 million	Newton
> 1 million	Xanderian

## 5.6 WHO CAN LECTURE

Lecturers will be pulled from both the conventional and the unconventional sphere. Anyone who posts valid lecture material will be given the chance to lecture, insofar as his lecture ratings doesn't become abysmal.

## 5.7 HOW TO MINE XANDEREUM

There are several ways to mine xandereum:

- By uploading lectures
- By rating lectures

## 6 ROAD MAP

- January 2018

Idea creation and development

ICO site development

- February 2018

Smart contract creation

Social media marketing

Airdrop

- March 2018

Developing the blueprint for xanderian website

- April 2018

Private sale

Launching of the ICO site

- August 2018

Sourcing for lecturers

- December 2018

Development of the xanderian website

- February 2019

ICO Pre-sale

- August 2019

ICO main sale
