STAKECENTER.CO

EXECUTIVE SUMMARY

The information contained here relates to the StakeCenter exchange and the dedicated StakeCenterCash coin.

INTRODUCTION

Information that will be included:

- How the stock exchange works
- What the StakeCenterCash coin will be used for
- StakeCenterCash
- Block rewards in StakeCenterCash
- What will presale funds be used for?
- About us
- Links
- Contact
- References

How the stock exchange works

- Your coins are always safe. We do not store coins on the hot wallet.
- If you see a suspicious login, you can always block the account.
- Unblocking your account is very simple, just write to us.
- We have Google Authenticator and we recommend that you turn it on in your account.
- All withdrawals are checked in terms of the account holder.
- Auto logout when you are inactive.
- Additional profit from using our exchange is that your coins are still staking.

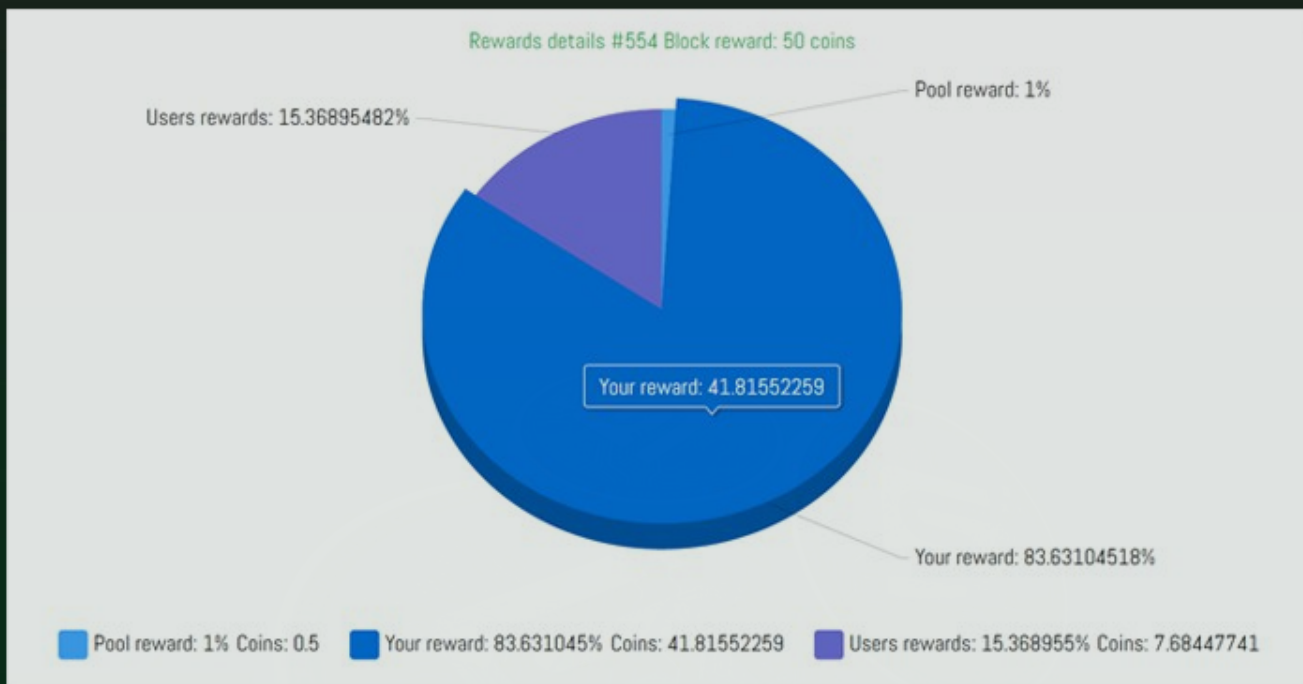

Staking coins:

The more people staking on the pool, the more coins you'll get in a shorter period of time. Coins that have been added for sale also participate in stake.

SOLO STAKING VS POOL STAKING

Each transaction is settled as a percentage of your shares eg:
User A have 60 coins
User B have 40 coins
so user A get 60% of coins from block reward and user B 40%. Pool fee 1% from block rewards:

Adding coins

You can add a coin in two ways:

Voting:

We add one coin per week, which will get a minimum of 200 votes

See this page for the current rules for adding a coin to voting:

<https://stakecenter.co/client/vote>

Instant adding:

You can see the current rules for adding a coin this way at this link. With this method, we charge a fee for adding:

<https://stakecenter.co/client/rules>

StakeCenter Codes

They are used to transfer coins between user accounts. You can use them, for example, as a prize in your competition.

Code generation and activation can be found at this link:

<https://stakecenter.co/client/stccode>

Affiliate

We have an affiliate program that now offers 3% on every transaction from a user you refer. On this page you will see your referrals:

<https://stakecenter.co/client/referrals>

Discord

All deposits, withdrawals and staking transactions are visible on the discord server:

<https://discord.gg/yZCbNsF>

What the StakeCenterCash coin will be used for

The main purpose of the coin will be the possibility of paid voting. At the moment, Bitcoin is used, but the transaction is not always profitable due to the network fee. It will also be the hallmark of our exchange.

StakeCenterCash [STAKEC]

 **STAKECENTERCASH: DECENTRALIZED**
DIGITAL CURRENCY-BLOCKCHAIN-PEER TO PEER **STAKEC** 

STAKEC

It is a POS / MN coin based on the Pivx code. We chose POS because of the nature of our stock exchange.

Proof of stake (PoS) is a type of consensus algorithm by which a cryptocurrency blockchain network aims to achieve distributed consensus. In PoS-based cryptocurrencies the creator of the next block is chosen via various combinations of random selection and wealth or age (i.e., the stake). In contrast, the algorithm of proof-of-work-based cryptocurrencies such as bitcoin uses mining; that is, the solving of computationally intensive puzzles to validate transactions and create new blocks.

Masternodes - a server located within the decentralized network of a given cryptocurrency. It performs those network functions that are not for normal nodes. The main functions it performs are direct sending / instant transactions or private transactions and transaction verification.

Block rewards in StakeCenterCash

Block rewards in StakeCenterCash

1 - 20:	82,000 coins	premine for presale, masternode and bounty
21	- 3000:	0.1 coin
3001	- 7000:	10 coins
7001	- 14000:	5 coins
14001	>	2.5 coins

Masternode COLLATERAL 10,000 coins

POS/MN reward: 20%/80%
Dev Fee 1% from POS reward

What will presale funds be used for?

Pre-sale price: 0.000005 BTC [500 satoshi]

Most of the funds will be allocated to the advertising and development of our platform.

After the sale is completed, we will buy 20% of the coins at the price of 0.00001 BTC [1000 satoshi].

In this way, some investors can have a certain profit.
