

Presentation

Flokimooni is not a meme coin. IT'S A MOVEMENT. A new cryptocurrency birthed by fans & members of the Shiba Inu community. Flokimooni is named after Elon Musk's very own Shiba Inu. FLOKIMOONI is working on three flagship utility projects: an NFT gaming metaverse, an NFT and merchandise marketplace , and a Dex & Launchpad platform known as Flokimooni. We call our community the Flokimoonies.

We don't just call ourselves a movement. We back it up with action. We take our community efforts seriously.

Lacking an active and committed community, the products and services created are often little used by the general public, due to a lack of proximity to members, a lack of commitment to projects.

Solutions & Goals

Flokimooni combines both the advantages of a meme and utility token, creating an entire attractive defi ecosystem with its ultra-engaged community, letting us having the most current trendy features in the crypto space.

We have different goals :

1 - Dex & Launchpad

With our ultra engaged community, we would like to create an appropriate Exchange and Launchpad that will promote new projects, till letting the community members having the chance to being an early investor in the best upcoming projects in the crypto space. our selectives criteria will be very strict.

Solutions & Goals

2 - Rare NFT's collection Drop and NFT Marketplace

A unique collection of NFT's will be out late in December, 10 000 Random NFT's will be minted and used later on in the play to earn game.

Theses will be the genesis drop,for our early community members.

The Genesis collection Airdrop

Also known as the "Diamond Hands" non-fungible token (NFT) collection. These are a series of ERC-721 compliant tokens that will be presented as rewards to initial airdrop receivers and the first batch of buyers.

There are four different tiers in the genesis collection:

- Cloud
- Sky
- Star
- Planet

Solutions & Goals

Each NFT in this collection has a specific clarity value. The utility of this value is not disclosed to the public yet. In addition to this value, each NFT has a chance to receive one of the following hidden attributes:

- X
- Y
- Z

These values and utilities of these hidden attributes are not disclosed to the public yet.

3 - Play to earn game

Flokimooni, as part of its effort in continuing to build out utility to its token, has unveiled its flagship project Flokimooni World : It's an NFT metaverse game run on the Flokimooni token.

Solutions & Goals

Non Fungible Tokens, or NFTs, have transitioned from being a lesser known, side show, to the crypto world, to becoming one of the most significant pieces of the crypto industry. One of the ways NFTs are now being leveraged is to give power back to gamers. Flokimooni world seeks to provide gamers with a fun and immersive experience that they can fully own and profit from.

Flokimooni World is a play-to-earn NFT gaming metaverse. In addition to being rewarded for battling, everything that you obtain in the metaverse is yours to own and to sell as you please.

The team working on Flokimooni World have been working on NFT games since 2018, and are onboarding high-profile advisors with experience developing successful mainstream addictive games.

More information will be updated soon.
