# THE BIG EVENT

---

The Big Event in SON OF DOGE V2's life was his decision to leave his Father's controlling paws and venture out to see what the world had to offer for entrepreneurial pups. His Father forbade him to leave but he disobeyed him and set out on what he thought was going to be an amazing adventure into a world so far unknown to him.

The future direction of the Son Of Doge v2 took a dramatic twist when certain obstacles were blocking his path on what could have been a treacherous journey. During his journey he was betrayed by some of the people he trusted most in life, by turning their back on him when he needed them the most and tried to destroy his journey and because of that, he learned skills how to protect himself from enemies and dangerous situations and learned making decisions on his own. Thankfully, he met a pack of pups who took him under their paws and welcomed him into their community.

They spent many months travelling the world, embracing different cultures and forging new friendships with new communities. Through this adversity they became really close and created relationships and bonds with pups he now calls his Family. He realized through trust, honesty and transparency that integrity shines through and anything is achievable.

After months apart his Father had been searching for his son, alone. But he had no success. Eventually, Son Of Doge v2 decided to return home to visit his Father to share his experiences and how he had matured as a pup. The journey home was tough, obstacles arose, but being a pack of pups who had each other's paws they made it back with ease.

At the very end, Father and Son Of Doge v2 were reunited. Father said, "Son, I searched everywhere for you, but could not find you." Son replied, "Father, I understand you struggled, you acted alone. Working together, sharing tasks, being a part of a community and family, and having complete trust, everything is possible".

The Son Of Doge v2 is now part of an ever-growing community. A community with fellow pups which are protecting each other. A safe environment.

A safe haven where every one of them is family.

# OVERVIEW

---

SON OF DOGE V2 first and foremost is a community driven project with the sole task of protecting the community, this is achieved by providing a safe environment for all. We aim to be an integral component to the BSC (Binance Smart Chain) stack of applications.

The team behind Son Of Doge v2 aims to innovate the BSC by building a project which provides a safe area for investor research, and a fun, entertaining and especially rewarding experience for everyone involved.

Each trade has a small fee deducted to pay for marketing ventures and the further development of the Son Of Doge v2 ecosystem.

These ventures are critical, as they allow Son Of Doge v2 to reach potential technology and marketing partners to further develop and grow the Son Of Dogev2 ecosystem.

The marketing wallet is secured through a multi-sig protocol. What this means is that the marketing wallet is not controlled by a single team member. For even one fraction of an Ether or BNB to leave the marketing wallet, at least 4 of the 6 team signatories must sign off on the transaction. This ensures that the marketing funds are truly being used for Son Of Doge v2 growth.

## THE SOD VISION

Son of Doge V2 is built on trust, honesty and transparency. We believe that these ideals are key to building strong community, and will be consistently ensuring that our actions and our project realte directly back to them.

2022 is the yearsthat the Son of Doge takes over the crypto space, and we will do that by having the strongest community. Community is 99% of every sucessful project, with the team being the 1% who steer the ship.

Every single holder will ahve a voice, and we will rise as one to take over! We are here for the long run, Shiba we are gunning for you.

# OUR UTILITY

SON OF DOGE v2's vision is to be a world class utility, aiming to be the most unique meme community crypto coin in the world. A coin with utility that will truly solve problems.

The below utilities will roll out Q4 2021 and throughout 2022.

## **PASSIVE INCOME GENERATOR BOOSTER**

We want to provide our holders the best experience in passive income like a double-edged sword. The first edge is receiving reflections from the transactions in SOD. The second edge is earning high yield APY in SOD's.

So, reflections + staking APY = Passive Income Generator Booster. This will create a solid base for the chart and investment on long term.

In the meanwhile you go on with your daily lives, pay bills, go shopping, vacations and not have to worry about the chart or your funds.

## **NFT MARKETPLACE EXCHANGE**

We will have very rare three tiers of NFT's. These NFT will be unique SOD NFT's that holders can purchase to hold, trade, sell or use in our own Decentralized NFT Marketplace website. We will also create an App for Apple and Android users.

## **SON OF DOGEV2 WHALE WATCHER APP**

The Whale Watcher App is to help users new and old to crypto track whale wallets that hold \$1 million in BNB or more and to send alert when these whale move a large portion of their BNB into any project and inform our users what project they are investing in or which ones are manipulating charts.

## **METaverse DEVELOPMENT**

Limitless Metaverse (TBC)

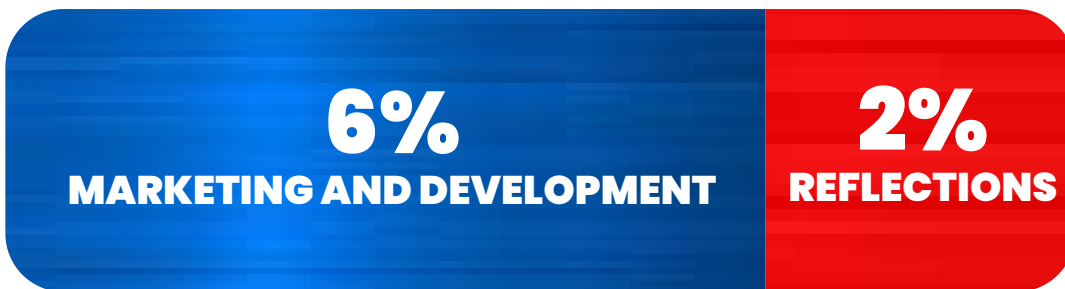

## **GAMIFICATION | PLAY TO EARN GAMING**

(TBC)

# TOKENOMICS

SON OF DOGE v2 charges an 8% transaction buy fee and an 8% sell fee. This fee exists of:

## SUPPLY BREAKDOWN WILL BE ANNOUNCED AFTER AUDIT

# ROADMAP

## PHASE 1:

- Relaunch on pancake
- CG listing
- CMC Listing
- Burn
- Release New Website
- Whitepaper
- Partnerships
- Huge Staking Platform
- Certik Audit
- Aggressive Marketing Roll Out

## PHASE 2:

- Develop NFT Contract
- Development of Unique NFT's
- Centralised Exchange Listing 1
- Development of NFT Market Place
- Release Unique NFT's
- Launch NFT Generator
- Solid Partnership (with Utility Focus)
- Development Android App
- Strategic Marketing

## PHASE 3:

- Launch Android App
- Development IOS App
- Launch NFT Market Place
- Metaverse (multiverse) Development
- Partnership with exclusive NFT Artists and Celebrities
- Centralised Exchange Listing 2
- Development of game PTE
- Strategic Marketing

## PHASE 4:

- Launch IOS App
- Huge Partnerships
- Launch Metaverse (multiverse)
- NFT Giveaway from exclusive Artists
- Community Polls for new exchanges
- Huge Marketing Drive
- Future Roadmap by Community

# KEY INFO

---
