1. About & Our Mission

- Shiba Waffle is a community driven ecosystem, A decentralized real world token utility that puts its community first, and rewards the ecosystem by participating in the network.
- We sit at the cuff of Web3.0 & Block Chain technology to develop user controlled decentralized communities that have limitless potential.
- We utilize the trust worthy low fee BSC Bep20 Token network that allows streamline smart contracts and user friendly transactions, our partners have built a network with open source solidity smart contracts that anyone can read and utilize for themselves.
- Our smart contracts apps will cater to a new generation of financially independent population that is well informed in the crypto currency space, but where does that leave the rest of the population? Our easy to use app allows everyone to take place in the evolution.
- With our Games, NFT's, Exchanges, & Crypto Courses, we will usher an entire generation to a new level of freedom in the crypto sphere.

2. Tokenomics & Utility

- Binance Smart Chain achieves ~3 second block times with a Proof of stake consensus algorithm. Specifically, it uses something called *Proof of Staked Authority* (or *PoSA*).
- Our Shiba Waffle Token allows users to reap the benefits of The Binance Smart Chain & decentralized network, by simply holding Shiba Waffle Token in their wallets they receive (7.00% APY) of every transaction automatically.
- There is a finite supply of Shiba Waffle Tokens, meaning there will only be 30 Billion tokens ever available.
- 30 Billion Token Supply - 30,000,000,000
- 7% Community Rewards Function - 7% of all transactions distributed to all holders**
- 1% Dev Tax**
- 8% Total Transaction Tax – Slippage**
- 5% of token supply to Charities for environment and humanitarian efforts.
- 10% of token supply to Marketing and community incentive
- 6% of the supply allocated to Marketing
- 79% of the supply allocated to Decentralized & Centralized Markets & Exchanges
- Annual Smart Contract Security Audits

**Code Functions and rewards.

3. Shiba Waffle Block-Chain Lottery

Lottery Specifics:

- Lottery ticket cost for 1 ticket: ~\$3 USD in BNB.
- Individual user Lottery entry limit: No overall limit, but only 100 tickets can be bought at a time.
- Paying for one ticket will give users a random 6-digit combination with each digit being between 0-9, for e.g. “1-9-3-2-0-4”. Match numbers from the left to win prizes—the more numbers that match, the bigger the prize pool you'll share in.
- Lottery uses Chainlink's implementation of VRF for true, secure randomness.

Prize sharing across prize brackets

After a round is drawn, and tickets with matching numbers are determined, the prizes are awarded. The amount won by each ticket will depend on how many other tickets won in the same prize bracket.

For example, if you have the only ticket that matched three numbers in order, and the predetermined share of the prize pool for your bracket was 2000 BNB, you'll receive the full 2000 BNB.

If, however, you and three other people match three numbers in order, the 2000 BNB would be split between the four winning tickets, meaning you would receive 500 BNB.

How are prizes broken down between brackets?

Each bracket's prize pool is a portion of the total BNB in each Lottery round.

Bracket (numbers matched in order)

BNB Allocation -

First 1 number - 2%

First 2 numbers - 3%

First 3 numbers - 5%

First 4 numbers - 10%

First 5 numbers - 20%

First 6 numbers - 40%

4. Token Swap

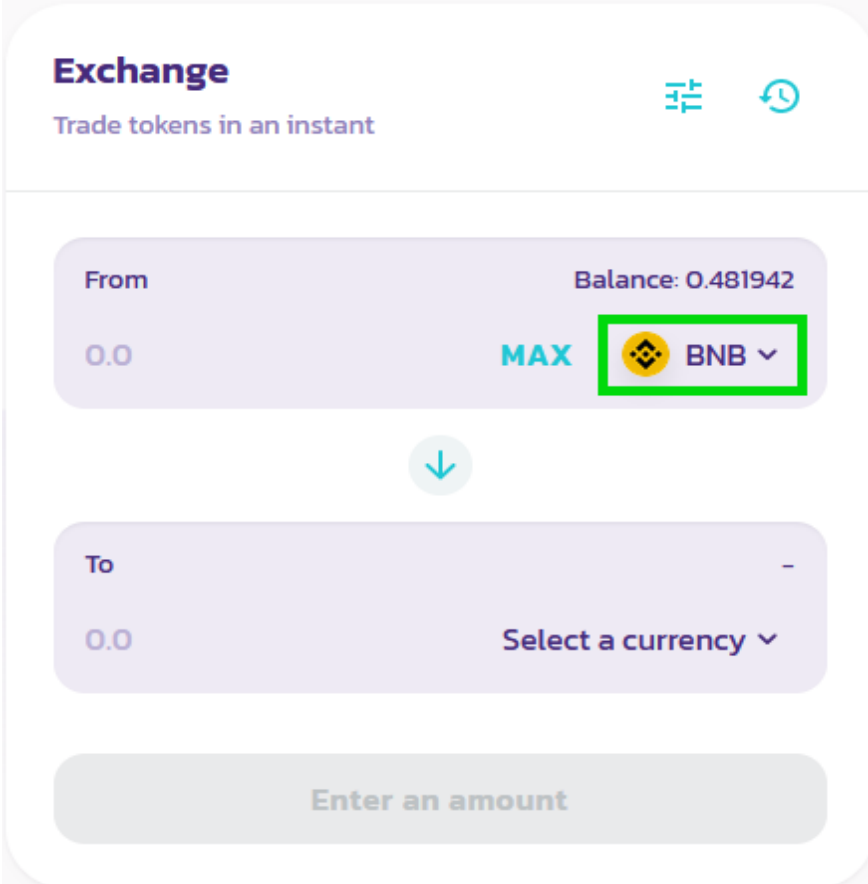

Shiba Waffle is on the Binance Smart Chain which allows easy transactions and token swaps between BNB, ETH, & many more.

Token Contract Address -

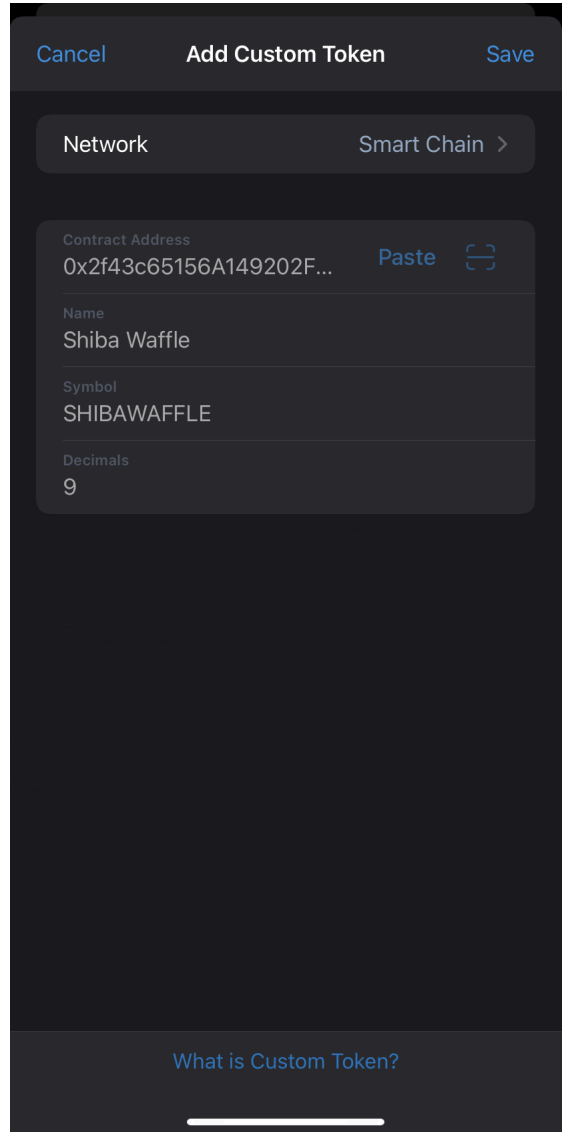

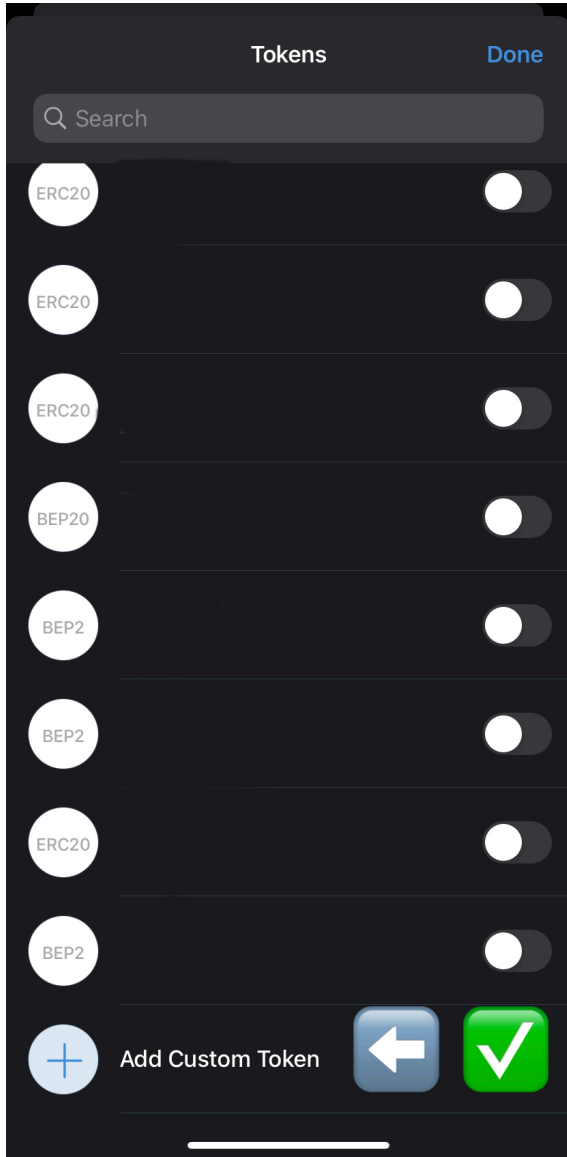

0x2f43c65156a149202f43eb6a4ea809b3fe764c75

Step 1. Search for the Token Address on the Official site or Above.

- Step 2. Copy the Token Contract Address and go back to Trust Wallet
- Step 3. Fill up Token Details in the Trust Wallet - “Add Custom Token in the token search.
- Step 4. Token Successfully Added and your ready to swap or send tokens to you address via PancakeSwap.finance or other reputable exchanges.

The image shows a mobile application interface for an exchange. At the top, it says "Exchange" and "Trade tokens in an instant". Below this, there are two main input fields. The first field is labeled "From" and has a balance of "0.481942". The amount "0.0" is entered in the field. To the right of the amount is a "MAX" button and a dropdown menu showing the BNB token icon and "BNB". The second field is labeled "To" and has a balance of "-". The amount "0.0" is entered in the field. To the right of the amount is a dropdown menu labeled "Select a currency". Below these fields is a large button labeled "Enter an amount".

5. Roadmap

- We want our community to stay up to date on all of our projects and time frames, simply go to ShibaWaffle.Com/RoadMap for updates and News.

6. Projections

Our Goals

- Our competitive edge allows us to tap into the 3 Trillion Dollar cryptocurrency markets and adapt to fast growing technological needs of the new generation of utility and merge these 2 markets to Real-estate and NFT's.
- We intend on adding value to our community by committing time and care to all of our projects and allowing every community member to be rewarded by simply holding our token.
- Other communities make promises & lack the actual product to scale real world use and integration but we are providing solid resources to enable community members to utilize, test, and help shape our success.
