# Introduction

Astrol is a concept derived from the stars. Historically, stars have been important to civilizations throughout the world. They have been part of religious practices, used for celestial navigation and orientation, to mark the passage of seasons, and to define calendars. Stars are major source of inspiration to our civilization, the message it delivers is what gravitates us to its beauty and grandeur.

# Objectives

ILLUMINATING THE WORLD

Our deepest ideologies is reflected on the nature of stars - Creating a Luminous World! We envision a world where everyone has access to electricity. Hence we established Global Luminous Society where we plan to build and distribute solar panels to people most in need of electricity. We can never imagine how a single panel of Solar can change the course of one's life. The possibility is immense and the need immediate.

With Astrol, we would like to plant a culture of Solar Consciousness around crypto population. No one can better understand the power and the significance of electricity than this community where everything is dependent on electricity. The blockchain can never see the light of day if electricity suddenly disappears from our world. Imagine how essential it is to those who have little to no access of this form of energy. Going Solar is the only way forward for a greener planet and economical electricity supply across the world.

The image features a dark, cosmic background with a large, glowing purple planet or moon in the upper right quadrant. The text "ASL TOKEN" is centered in a bold, white, serif font. The overall aesthetic is mysterious and futuristic.

**ASL TOKEN**

We created ASL token with an aim of tokenizing the solar production and distribution . The token holders will actively support in our mission to create a Global Luminous Society. The token can be used a store of value and every new holding will be recorded in a vault until it gets filled. Once the vault is locked it will provide a figure to distribute certain number of Solars and the process repeats thereafter. ASL token is developed with low gas fee mechanism. ASL will launch ICO campaign for initial fundraising. The collected amount will go to liquidity and the next step is to be listed on exchange platform for CoinGecko and CMC listing.

The background is a dark, deep purple space scene. A large, glowing planet with a blue and purple hue is visible in the upper right quadrant. The sky is filled with numerous small, bright white stars and a faint, ethereal nebula or galaxy structure. The overall atmosphere is mysterious and cosmic.

# ASL STAKING

We will launch a staking platform in the next quarter of our roadmap. The platform is merely designed to facilitate our token holders to earn passively while supporting a great cause. The rewards and plans will be disclosed shortly via our website. The software is under development and will reach Beta version on mid July, 2022. Stay tuned for more updates.

# USE CASES

The number one use of the token is trading. Our holders will be able to trade the token in major DEX by July and we hope to be listed on CEX by the end of 2022. With trading aside, ASL token is expected to be used as a medium of exchange in day to day platforms like Online Travel Agencies to Ecommerce sites. Another major usage will be staking under our own ecosystem and earn awesome rewards. But we think the best usage will be your contribution to our project of illuminating the darker parts of our world.

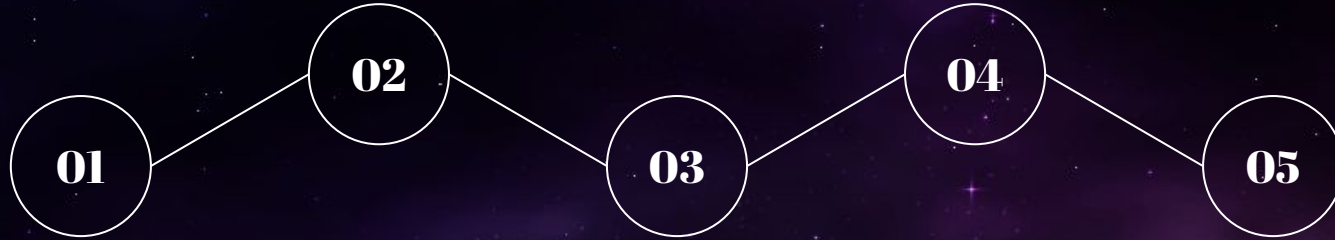

# Road Map

## Going Live

Website Launch and Private Sale  
Branding

## Promotion

Public Sale of Token and Marketing

## Commencement

Project Development  
Company Formation and  
Fundraising

## Experimentation

Staking Platform Development

Listing on major  
platforms

# Astrol - ASL

**Experience Crypto like never before. Discover the best of blockchain and empower the Global Luminous Society with ASL TOKEN.**

A dark purple and black space-themed background featuring a large, glowing planet in the upper right quadrant and numerous small white stars scattered throughout.

**27,000,000,000**

TOTAL ASL EVER CREATED

# Token Information

- TOKEN NAME : ASTROL
- TOKEN TICKER : ASL
- TOTAL SUPPLY : 27,000,000,000
- TOTAL CIRCULATING SUPPLY : 15,000,000,000

# Token Distribution

- LOCKED FOR LIQUIDITY - 30%
- EXCHANGES AND MARKET SET UP - 15%
- ICO AND PRESALE - 5%
- DEVELOPERS AND TEAM - 10%
- MARKETING - 20%
- Charity - 10%
- BURN- 10%

# Thanks
