About AnimeDoge

Sent by Elon and with the mission to save the market downturn, AnimeDoge is the new tax-free rising star on the famous BNB chain, which encompasses all of the loved and required features for a successful pattern in the meme coin space.

Not just meme, AnimeDoge will bring its own themed comics, NFT, game, and metaverse.

For AnimeDoge, the community is the project's foundation, actively supported and built upon by a passionate team whose primary focus is saving the market downturn and restoring people's confidence. AnimeDoge will create a Dao that unifies all the meme coin holders and brings them to .

Why did we create AnimeDoge ?

Bitcoin (BTC) continued its downward slide over the few weekends, slipping below \$21,000 for the first time in this year. The leading crypto is now going all the way down, according to CoinMarketCap data. A few weeks ago BTC touched \$17,588, and crypto investors are braced for further losses.

The Crypto Fear & Greed Index is flashing "extreme fear" right now. This isn't so surprising given Bitcoin dropped so fast -- its largest intraday fall since January. The index tracks various indicators, including price volatility, social media activity, and trading volume.

The prices of other top cryptos have also dropped significantly including Ethereum (ETH), BNB (BNB), and Solana (SOL) in the past few weeks.

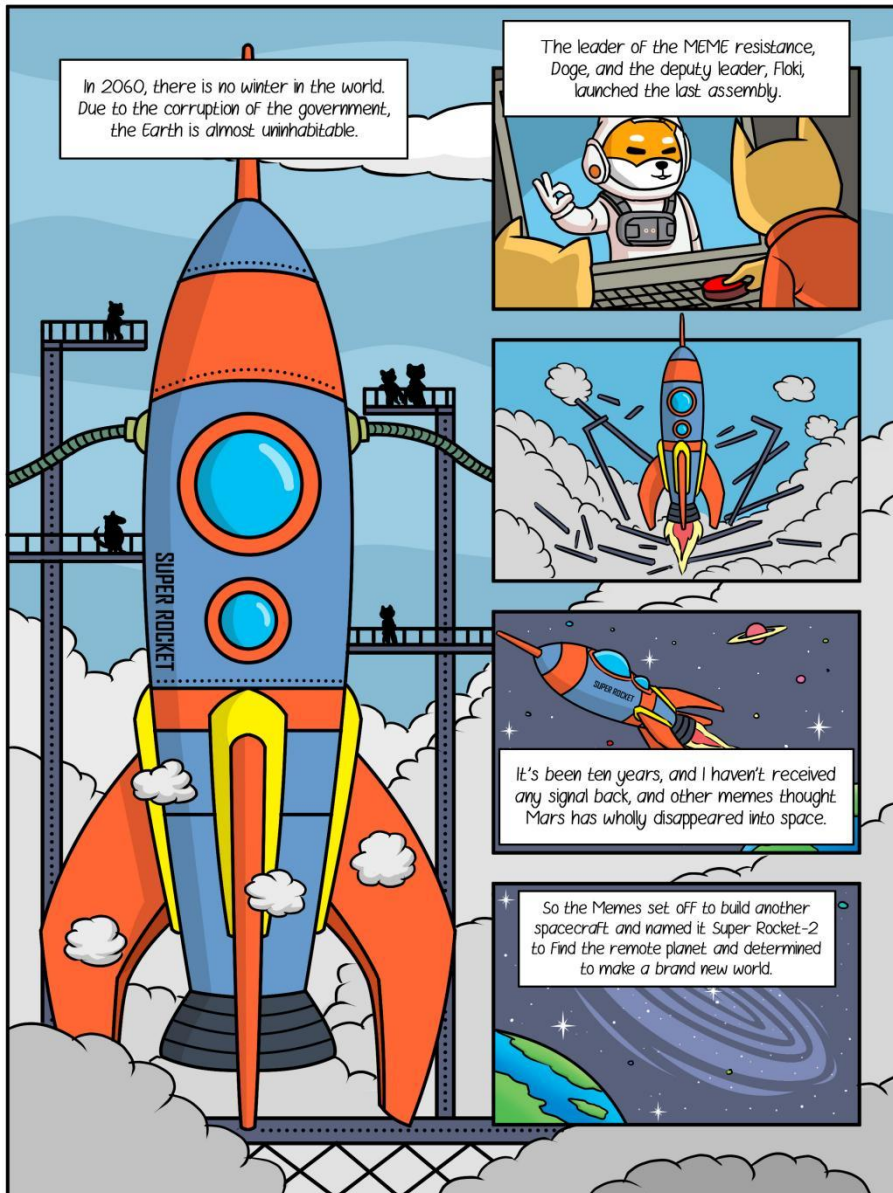

AnimeDoge was created by a team with extensive experience in the industry, aiming to restore market confidence with a steady and healthy price increase, and help all Meme Coin holders get through this with its unique ecosystem.

Comics

Unlike other meme coin projects, AnimeDoge will create its own hand-painted comics, which can be seen on the website, and the team will continuously update the comics.

THE LOST WORLD

AnimeDoge

NFT

AnimeDoge will release its own NFTs, which will later be integrated into the AnimeDoge metaverse game.

Game

AnimeDoge got a professional dev team that can develop a hit P2E game with all the features. The backstory of the game will be based on the comic content.

DAO

We will use Dao tools like snapshot and boardroom to build a DAO of openness and transparency and encourage the holders to join the community governance.
