

Smart Blockchain Ecosystem

With A Great Utilities

DX

DoKEN Founder

DoKEN is the token of the people. Our vision is to create a smart blockchain ecosystem that accommodates to both developers and investors.

The Future of Blockchain is here

**We don't make promises
We Deliver**

DoKEN intends to build a smart blockchain ecosystem, which will accommodate both investor and developer needs.

Stage 1

Branding

Stage 2

**Product
Delivering**

Stage 3

**More
Utilities**

About Dō-Ken

Born for a better blockchain ecosystem

DōKEN is a token that has a vision to create an integrated smart blockchain ecosystem, which is equipped with various tools that are very helpful for investors and developers.

DoKEN prioritizes transparency and investor confidence in project development and We believe this plays a crucial role in the lifecycle of a cryptocurrency project.

Main Products

These are our next main product development

DoKEN Super Chain

DoKEN is building its own blockchain right now and the testnet is already live

Smart Integrated Swap

DoKEN intended to create a smarter swap module that have a lot of insight which will helps investors to make an analysis to a project they'd like to invest

More Utilities

We have many products that already live, such as Dojo Staking, KYC, Token & Liquidity Locker, Launchpad, Dividend Hub, and Candyswap DEX

DoKENomics

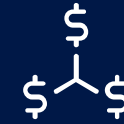

We have implemented an awesome Dokenomics for our holders.

DoKEN implements a smart feature that will protect holders from whales that have intention for dumping the price. Such as Buy & Sell Cooldown, Max Wallet and Max Buy / Sell Transaction amount.

9% Total tax

We want to keep the tax as low as possible, so here is the breakdown of our tax

2% Auto Liquidity

2% of every transaction will be added as LP

6% Marketing & Development

In order to maintain DoKEN development and existence

1% Buyback

This would be collected into our buyback wallet, so that we can restore some position

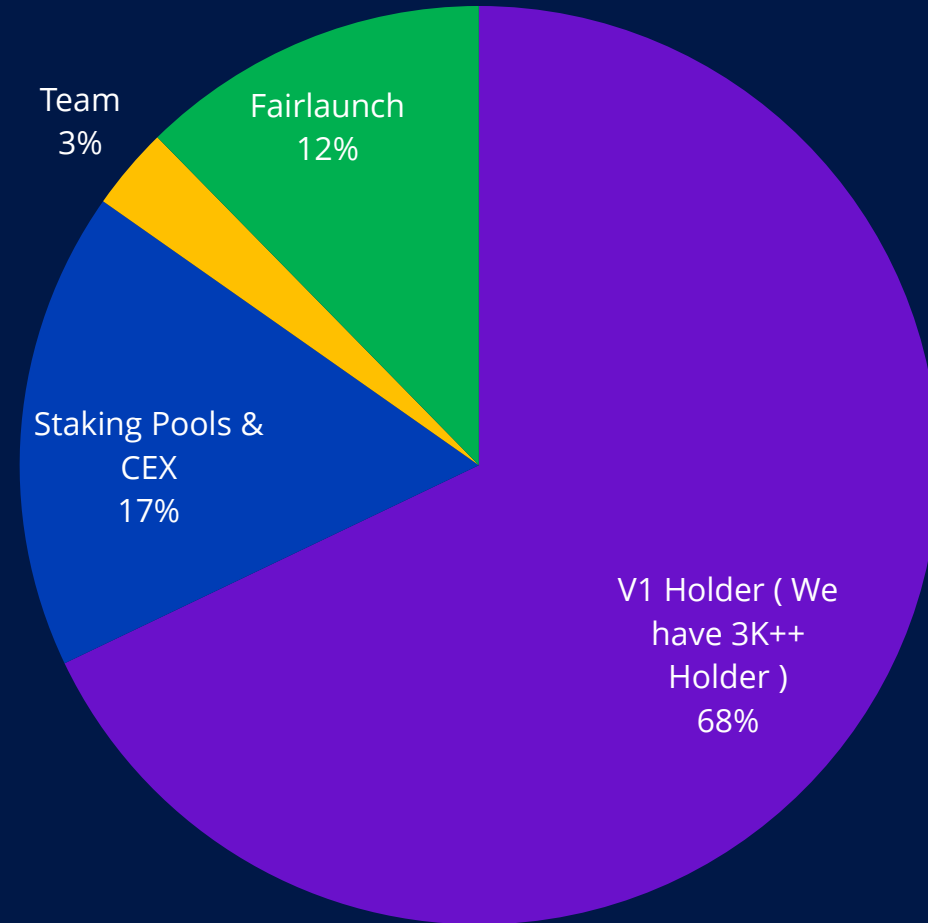

Supply Allocation

Knowing our supply allocation will give you more insight

Total Supply is : 1.000.000.000.000 DoKEN
We use Fairlaunch & Liq from v1 to fill the initial LP.

Raised Presale Funds Allocation :
Softcap Raised Funds : **200BNB**
70% Allocated as initial LP
25% Allocated as Initial Marketing
5% Allocated as initial Development

Supply Allocation

Better Anti Whale Protection

We upgrade our contract and add some new features to protect investor

Buy & Sell Cooldown

We have implemented a new feature called Buy & Sell Cooldown, which technically will limit every buy & sell transaction of a wallet for 10 seconds

Max Wallet

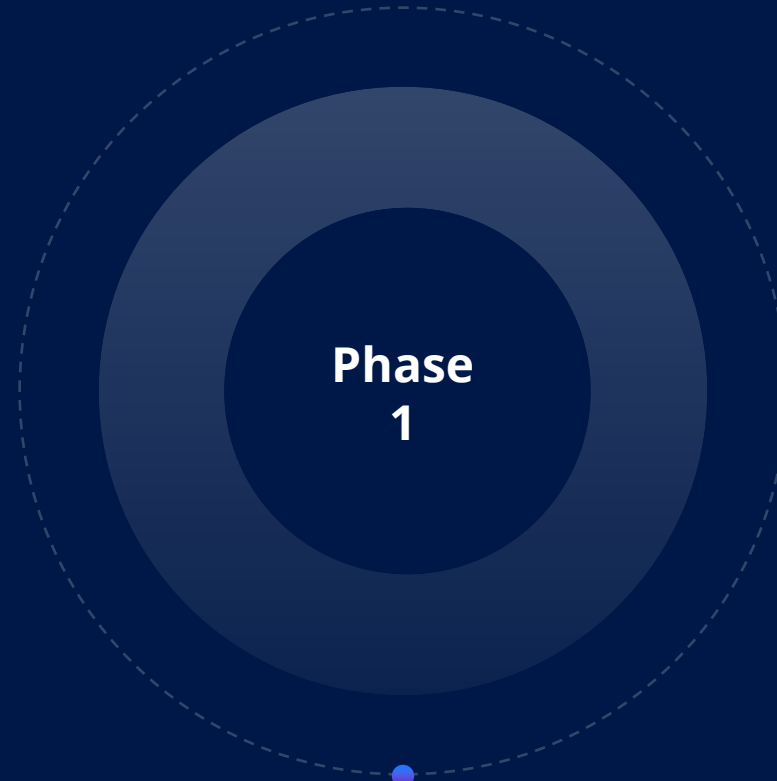

On DoKEN V2, we also implementing a Max Wallet feature, which will make the supply distribution better and healthier

Lower Tax

On DoKEN V2, we also reduce the Tax, so that you can get more coins from your purchases

DoKEN Roadmap

- Mainnet Blockchain Release
- CandySwap Presale
- Mainnet Bridge Deployment
- CandySwap Deployment
- Swap Page & Website Improvement

Phase 2

Getting Bigger

We are targeting to get listed on many major CEXes and doing more partnership to increase our visibility and project awareness

Phase 3

Further Development

We will keep innovating a Decentralization products to keep DoKEN Growing Further

Phase 4

DoKEN Awareness

Providing Ads Space that requires to pay in DoKEN, Finalizing API & Subgraphs, Mobile Apps and many more utilities
