

# WHITEPAPER

[www.ethshares.io](http://www.ethshares.io)

# INTRODUCTION

---

EthShares has set a goal to become the most lucrative reflection token in the cryptocurrency space by offering a sustainable and substantial passive income of 8% reflection in Ethereum to ETS holders. The EthShares ecosystem generates stable passive income through Ethereum reflections.

To ensure financial stability, ETS holders will continuously earn passive income in the form of Ethereum, which will constitute 8% of every transaction. This mechanism will encourage new investors to hold their investments for the long-term, while the team focuses on developing a robust ecosystem for sustainable growth.

# CONCEPT

---

The initial idea behind cryptocurrency was to establish financial freedom for all through a decentralized system. The popular notion of redistributing power to the community instead of centralizing decision-making processes in the hands of a select few individuals or organizations that monopolize the banking system inspired the concept of cryptocurrency.

EthShares has a unique tokenomics structure that eliminates selling pressure, combined with essential features that promote the massive success of the token, providing a solid foundation for explosive yet sustainable growth.

# MISSION

---

EthShares aims to develop AI-powered decentralized applications (dApps) that offer an enhanced Web3 user experience while incentivizing developers and sharing profits with token holders through its reflection mechanism.

The platform offers a world-class dividend payment system that pays token holders in Ethereum directly to their wallets without the need to claim tokens. The ecosystem is 100% decentralized, and the community/holders have absolute power to make all decisions that affect growth. EthShares endeavors to create a user-friendly asset that generates wealth and financially enriches all investors, especially token holders.

# \$ETS Ecosystem

EthShares plans to develop several features that will benefit \$ETS holders now and in the near future.

## ➤➤➤ REWARDS DASHBOARD

A groundbreaking rewards dashboard will enable users to claim, view, calculate, and track their rewards using best-in-class analytical tools. The dashboard, optimized for both desktop and mobile devices, will allow users to track or claim their ETH rewards from anywhere. Charting and swap features will be added to the dashboard in the future.

## ➤➤➤ ETH Share Wallet

The EthShare wallet will support multiple currencies, streamlined UI, and desktop and mobile versions to help users monitor and manage their rewards.

## ➤➤➤ ETS Enigma AI App

- Portfolio Management

The ETS Enigma AI app will use machine learning algorithms to analyze historical price data, trading volumes, and other factors to predict cryptocurrency prices, market trends, and investment opportunities.

## ➤➤➤ CryptoGPT AI APP -Ethan

The CryptoGPT AI app, powered by OpenAI models, will act as a public library that can provide answers to any questions posed to it. Ethan ChatGPT is an AI-powered language model based on GPT-3.5 architecture that can transform the way we communicate with machines, making it more natural and intuitive.

It has the potential to revolutionize the way we interact with the world of cryptocurrency by analyzing vast amounts of data to help investors make informed decisions, providing real-time updates on cryptocurrency prices, automating certain processes to make transactions faster and more efficient, and improving transparency and trust in the industry. Ethan ChatGPT is at the forefront of these revolutionary technologies that offer significant benefits to both industries, making them more accessible, efficient, and secure.

## **ETHSHARES FEATURES**

**100% DECENTRALIZED  
ECOSYSTEM**

**SECURITY**

**PASSIVE INCOME**

**AUTO-REWARD**

## »»» SECURITY

EthShares is a 100% decentralized ecosystem that ensures maximum security. Its smart contract has undergone a thorough audit by top auditing companies, and Skynet onboarding via Certik provides 24/7 monitoring to keep assets 100% secure.

## »»» PASSIVE INCOME

The platform provides sustainable passive income, with 8% of the total transaction value distributed as Ethereum tokens to all ETS holders.

The reward mechanism is fully automated by smart contract, and there is no need to claim rewards. Simply holding ETS tokens in a wallet is enough to receive 8% rewards in Ethereum indefinitely.
